

## Coronal and Horizontal Brain Sections

### Study List

**Be able to ID the following structures on the coronal and horizontal brain sections:**

Thalamus – including the medial and lateral geniculate nuclei

Hypothalamus

Internal capsule – especially the posterior limb of the internal capsule

Pineal gland

Hippocampus

Amygdala

Nucleus basalis of Meynert

Septal nuclei

Nucleus accumbens

Subthalamic nucleus

Substantia nigra

Caudate

Putamen

Globus Pallidus
